

2010 CIO/Institution and Researcher Representative Election for Internet2

2010 CIO/Institution Representative for the Applications, Middleware and Services Advisory Council. Vote for 1 of 2.

- Joel Smith
- Shel Waggoner
- Abstain
- Submit New Candidate

2010 CIO/Institution Representative for the Architecture and Operations Advisory Council. Vote for 2 of 4.

For this ballot ONLY, please vote for 2 of 4 candidates and please rank the candidates in order of preference. [Voters will rank candidates in order of preference, and will rank up to the number of candidates per open seat for that constituency. If no candidate receives an overall majority of first preferences the candidates with the lowest number of first preferences are eliminated progressively and their votes transferred according to their next preferences until a winner is achieved. The process uses a version of Single Transferrable Voting (STV) that allows for multiple winners on each ballot, consistent with the number of open seats. For more information on STV and preferential voting, see http://en.wikipedia.org/wiki/Single_Transferable_Vote.
