INCOMMON’S IDENTITY ASSURANCE PROGRAM: WHAT’S NEXT?

Ann West
Assistant Director,
InCommon Assurance and Community
awest@internet2.edu
It’s All About Risk

How can I manage my risk when users are authenticated by another organization?
National Student Clearinghouse/Meteor

- Aggregated Financial Aid Views for financial aid professionals and students
- Contractual Requirements
Requirements

- What items of documentation are collected from a new user prior to granting access?
- How is the identity of the new user verified (e.g., independent validation of data supplied, personal knowledge, etc.)?
- If passwords are used in your authentication procedures, describe how they are selected, assigned and delivered to new users.
- What information do returning users enter to gain access?
NSC: Silver Service Provider
