Planning for P&I and Access Management work at ACAMP

- CIFER Provisioning and Integration (P&I, Rob Carter)
- Discussion of survey regarding prescriptive and optional access management principles (Chris Phillips)

Why is federated authorization so hard and do we have to do it anyway?

- Lessons from the Virtual World (Heather Flanagan)

Emerging use cases: Guest/Invitation systems and provisioning from them

- How many of us are planning for or implementing guest / invitation systems?
- Are your traditional Service Providers ready for the vast masses of new people who will be able to authenticate?
- Is provisioning/deprovisioning part of the solution?

Simple Lightweight Access Markup Language (SLAML)

- SLAML, a policy protocol for the faint of heart and simple of problem (Keith Hazelton)
- Joking aside, the question is will there be more to access management than isMemberOf and eduPersonEntitlement?
- In particular, will SPs be calling things that look like Policy Decision Points?
- If so, with what protocols?

Events of interest at the I2 Fall Member Meeting

- "Grouper After Groups - Enabling Net+ Services with PAP, PEP, and PDP, Oh My!" (Bill Thompson preview, session is Wed. at 4:30pm)
- "IAM Solutions for the Community from the Community: CIFER and Friends" (Keith preview, session is Thurs. at 10:30am)
